AI Financial Advisor — Wireframe Spec (engineering-grade)

Mobile-first at a **390px reference width**. Real sample content (EGP, actual copy, AI-style sentences), all relevant **states**, **component tags**, **flow arrows**, and **dynamic-content annotations**. Templates are simple **budget splits** — one **"Investment"** category plus everyday categories (Groceries, Utilities, Transport, Spending). No investment-vehicle breakdown (no funds/gold/certificates) at this stage.

01 Splash → get started → 02 Consent → 03 Onboarding modal → 04 Plan → 07 Dashboard → 05 Chat → 06 Docs & Data → Profile

Sign in → straight to Dashboard.

BI-DI / NUMERALS DECISION — APPLIES TO EVERY SCREEN

Flips in Arabic (RTL):
layout direction, text alignment, reading order, nav side, chevrons, progress-fill direction.

Stays LTR / does NOT flip:
all numerals use
Western digits (0–9)
— amounts, %, dates, account numbers; currency renders
8,500 EGP
LTR; Latin file names stay LTR inside RTL text.

PRODUCT-MODEL DECISIONS

One plan per user.
A single most-recent plan lives in budgets
(1:1 with user). Editing replaces it — no history.

Templates = budget splits.
Investment is one line; the rest are normal categories. Picking one seeds numbers, tunable in a
HITL modal
from chat or dashboard.

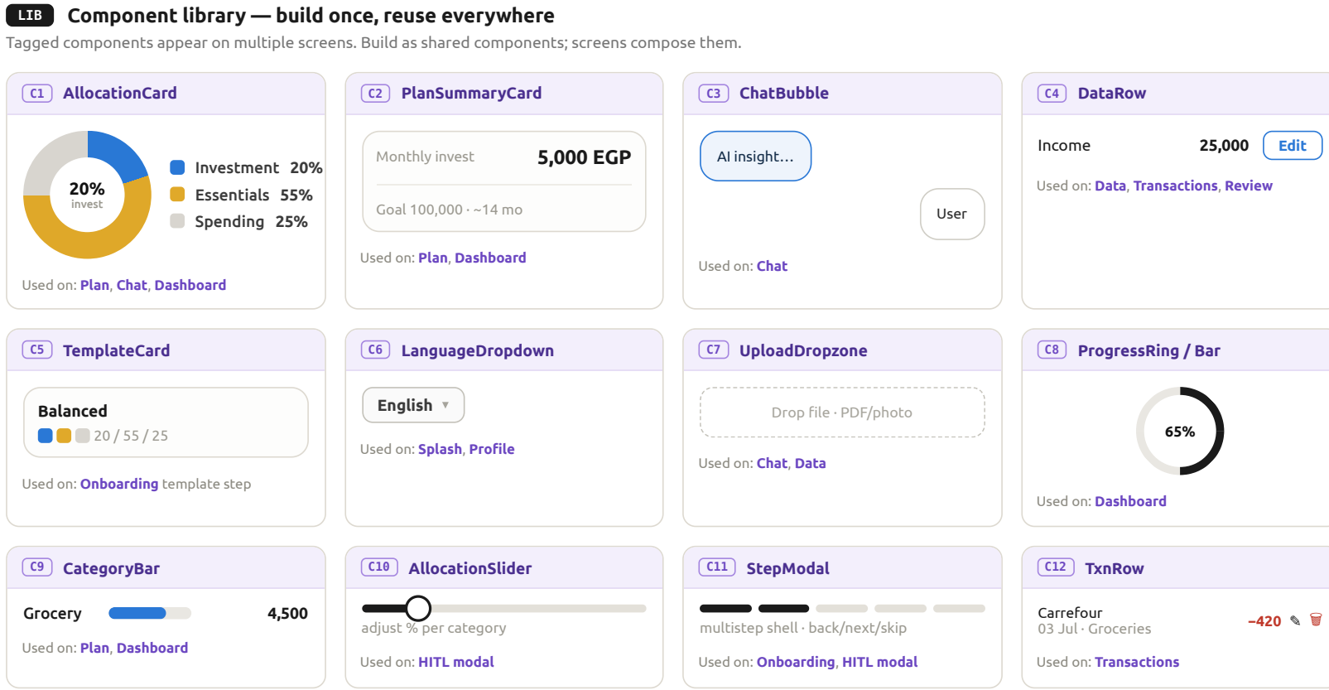
Chatbot = insights only.
Not the data engine. Everything is enterable/editable manually on the dashboard.

Dashboard hub
links to Chatbot, Documents & Data (incl. transactions), and Profile & Settings.

■ **Black** = primary / progress · ☐ **Blue** = AI / charts · C# = reusable component · ◆ **dynamic** = flexible content rule · EMPTY LOADING POPULATED ERROR

12 Component library — build once, reuse everywhere

Tagged components appear on multiple screens. Build as shared components; screens compose them.



C1 **AllocationCard** — 20% invest · Investment 20% · Essentials 55% · Spending 25% — Used on: Plan, Chat, Dashboard

C2 **PlanSummaryCard** — Monthly invest 5,000 EGP · Goal 100,000 · ~14 mo — Used on: Plan, Dashboard

C3 **ChatBubble** — AI insight… · User — Used on: Chat

C4 **DataRow** — Income 25,000 Edit — Used on: Data, Transactions, Review

C5 **TemplateCard** — Balanced · 20 / 55 / 25 — Used on: Onboarding template step

C6 **LanguageDropdown** — English ▾ — Used on: Splash, Profile

C7 **UploadDropzone** — Drop file · PDF/photo — Used on: Chat, Data

C8 **ProgressRing / Bar** — 65% — Used on: Dashboard

C9 **CategoryBar** — Grocery 4,500 — Used on: Plan, Dashboard

C10 **AllocationSlider** — adjust % per category — Used on: HITL modal

C11 **StepModal** — multistep shell · back/next/skip — Used on: Onboarding, HITL modal

C12 **TxnRow** — Carrefour · 03 Jul · Groceries · −420 — Used on: Transactions

01 Splash / entry — welcome, language, sign in / get started

First page. A welcoming message, the language dropdown, and two doors. New users go through consent + onboarding; returning users sign in and land straight on the dashboard.

FLOW ▸ "Get started" → Privacy & consent (02) · "Sign in" → Dashboard (07)
REUSES C6 LanguageDropdown
DYNAMIC ◆ welcome copy 1–2 lines · ◆ language list from locales
